

American Perfumer and Cosmetics

Index of Volume 77

Published by Allured Publishing Company
1031 South Boulevard, Oak Park, Ill.

January-December, 1962

- Aerosol technology, European contribution to—H. Kubler, June, 42
- Aerosols, dermatologic pharmaceutical—John J. Sciarra and Henry Eisen, Jan. 57
- Aerosols, a discussion of emulsified products in—John W. Hart, Herbert C. Cook, Oct. 49
- Aging, chemical aspects of—Johan Bjorksten, Feb. 49
- Aluminum compounds, basic—Hideo Tanabe, Aug. 25
- American Society of Perfumers, proceedings of the 7th annual symposium of the—May, 25
- Analysis and their significance, chemical and physical methods of (a review)—V. Daniel Johnston, Mar. 20
- Application of emulsification theories to cosmetic formulation—Phyllis Carter, July, 26
- Basic aluminum compounds—Hideo Tanabe, Aug. 25
- Chemical aspects of aging—Johan Bjorksten, Feb. 49
- Chemical and physical methods of analysis and their significance (a review)—V. Daniel Johnston, Mar. 20
- Chemistry and formulation of depilatories, the—Gavern T. Walker, Aug. 36
- Classification of emulsifiers—G. Carriere, Oct. 119
- Clay-water systems, the rheological behavior of—H. van Olphen, April 42
- Cobalt salts of ion exchange resins in dermatological preparations—Robert W. Percival, Jan. 39
- Comparative value of polyols in cosmetic emulsions—S. J. Strianse, Oct. 31
- Composition of valencia orange oil as related to fruit maturity, the—J. W. Kesterson and R. Hendrickson, Dec. 21
- Conflicts of interest, what can be done about—William Lambert, Aug. 21
- Coordination of chemical analysis and organoleptic techniques—Fred C. Theile—Mar. 33
- Correlation of odor quality and analytical specifications (a review)—Harry Saunders, Mar. 38
- Cosmetic analysis, electrometric titration for—Sheldon Connolly, Sept. 39
- Cosmetic analysis and product evaluation, radioisotope applications to—William F. Bousquet, Aug. 31
- Cosmetic formulations, predicting the stability of—Leon Lachmann, Sept. 25
- Cosmetic preparation containing hormones—Jan. 75
- Cosmetics of Japan, the—T. Koyama, June, 39
- Critical re-evaluation of factors affecting emulsion stability, a—Sidney Riegelman and Gary Pichon, Feb. 31
- Danish cosmetic business under the European common market, the—E. Thomsen, June, 41
- Dentifrice, strontium chloride in—Jan. 51
- Dentifrices, the use of fluorides in anticariogenic—D. S. Barrie, Aug. 39
- Depilatories, the chemistry and formulation of—Gavern T. Walker, Aug. 36
- Dermato applications of sulfur-bearing organic bactericide-fungicides—Betty Tarnoff, Jan. 35
- Dermatologic pharmaceutical aerosols—John J. Sciarra and Henry Eisen, Jan. 57
- Determining consumer preferences for labels—C. L. Washburn, Sept. 51
- Dimethoxane, a new preservative—Dec. 32
- Discussion of emulsified products in aerosols, a—John W. Hart, Herbert C. Cook, Oct. 49
- Electrometric titration for cosmetic analysis—Sheldon Connolly, Sept. 39
- Emulsification, theoretical aspects of—Paul Becher, July 21
- Emulsification theories to cosmetic formulation, application of—Phyllis Carter, July 26
- Emulsified ointment base, the release of medication from an—H. G. De Kay, Oct. 109
- Emulsifiers, classification of—G. Carriere, Oct. 119
- Emulsifiers, ethoxylated higher fatty alcohols as—C. D. Moore and Maurice Bell, Oct. 81
- Emulsion stability, new data on determining—Sidney Riegelman, Oct. 59
- Emulsion stability, a critical re-evaluation of factors affecting—Sidney Riegelman and Gary Pichon, Feb. 31
- Emulsions with hydrocolloids—T. W. Schwarz, Oct. 85
- Emulsions, new liquid lanolins in—E. W. Clark, Oct. 89
- Emulsions, the perfuming of—J. R. Elliott, Oct. 69
- Emulsions, stability prediction of—J. Wilkinson, Oct. 105
- Emulsions, studies in the electrical resistance of oil-in-water—I. H. Harrison, Oct. 73
- Ethoxylated higher fatty alcohols as emulsifiers—C. D. Moore and Maurice Bell, Oct. 81
- European contribution to aerosol technology—H. Kubler, June, 42
- European common market, the Danish cosmetic business under the—E. Thomsen, June, 41
- Fatty acids in cosmetics and perfumery, the use of—K. T. Zilch, Nov. 41
- Federal food, drug and cosmetic legislation and its relationship to cosmetic formulation—K. E. Mulford, July, 18
- Flavosmatology—the comparative study of flavors and perfumes—H. L. Janovsky, Sept. 46
- Foreign market information, organizing for—Mrs. E. Edwards, June, 45
- Fragrant flowers and leaves—part 4, the thymelaceae—E. S. Maurer, April, 47
- Fragrant flowers and leaves—part 5, the aristolochia—E. S. Maurer, Aug. 44
- Fragrant flowers and leaves—part 6—E. S. Maurer, Nov. 27
- Functional properties of lanolin derivatives—L. I. Conrad and H. F. Maso, Oct. 97
- Future potential of the Rutgers' perfumery educational program—Frank Dee, Mar. 17
- Gas chromatography—Gunnar Gjerstad, Nov. 19
- Germicidal properties of perfume oils and perfumery chemicals—Jasper C. Maruzzella, Jan. 67
- Girard's reagents, their chemistry and applications—G. T. Walker, Dec. 37
- Glycyrrhetic acid and its derivatives, recent advances with—Frank M. Sullivan, Jan. 47
- Greetings and good wishes from the Toilet Goods Industry of Mexico—Eduardo Meurinne, June, 36

- Hormones, cosmetic preparation containing—Jan. 75
- Hormones, local application of in some dermatologic problems—Leonard V. Kornblee, Jan. 71
- Hormone-like composition for treatment of the skin—Jan. 65
- Hydration of the skin surface by fats and emulsions—Peter Flesch, Oct. 77
- Hydrocolloids, emulsions with—T. W. Schwartz, Oct. 85
- Hydrocolloids—part I, natural plant—George Meer, Jr. and Dr. William A. Meer, Feb. 34
- Hydrocolloids—part II, natural plant—George Meer, Jr. and Dr. W. A. Meer, April, 49
- Hydrocolloids—part III, natural plant—George Meer, Jr. and Dr. W. A. Meer, May, 49
- Implications of expanding Russian chemical technology, the—R. First, June, 47
- Industrial pharmacy—Jack Cooper, April, 39
- Instrumentation techniques as applied to quality standards of perfume materials—James A. Rogers, Jr. Mar. 21
- Instruments in organic chemistry, what the perfumer should know about modern—Dr. Max Stoll, May, 27
- Ion, of cobalt salts exchange resins in dermatological preparations—Robert W. Percival, Jan. 39
- Japan, the cosmetics of—T. Koyama, June, 39
- Lanolin derivatives, functional properties of—L. I. Conrad and H. F. Maso, Oct. 97
- Local application of Hormones in some dermatologic problems—Leonard V. Kornblee, Jan. 71
- Lotio alba composition, stabilized—Feb. 45
- Managing perfumer and fragrance integrity, the—George H. Fuller, Mar. 46
- Measurement of the T_n factor in cosmetic chemists—R. M. Goldemberg, Feb. 42
- Mice and voles—R. W. Moncrieff, April, 53
- Modern merchandising—Amy Booth, June, 51
- Natural plant hydrocolloids—part I—George Meer, Jr. and Dr. William A. Meer, Feb. 34
- Natural plant hydrocolloids—part II—George Meer, Jr. and Dr. W. A. Meer, April, 49
- Natural plant hydrocolloids—part III—George Meer, Jr. and Dr. W. A. Meer, May, 49
- Nature of waxes found in petroleum, the—G. W. Skinner, Dec. 25
- Neroli and orange flower absolute—Dr. Bruno Bigi, Sept. 21
- New data on determining emulsion stability—Sidney Riegelman, Oct. 59
- New liquid lanolins in emulsions—E. W. Clark, Oct. 89
- Odour classifications based on volatility—F. V. Wells, Nov. 30
- Olfaction and taste, symposium on—R. W. Moncrieff, Nov. 17
- Orange oil as related to fruit maturity, the composition of valencia—J. W. Kesterson and R. Hendrickson, Dec. 21
- Organizing for foreign market information—Mrs. E. Edwards, June, 45
- Organoleptic techniques as applied to industry standards—Louis H. Hediger, Mar. 29
- Organoleptic techniques, coordination of chemical analysis and—Fred C. Theile, Mar. 33
- Overview of quality standards in perfumery materials (a review), an—Al Fiore, Mar. 19
- Pearl essence—W. E. Decker, Dec. 35
- Performance evaluation and stability testing of perfume and essential oil materials—Donald E. Dean, Mar. 39
- Perfume and essential oil materials, performance evaluation and stability testing of—Donald E. Dean, Mar. 39
- Perfume materials as the perfumer sees them, problems in the standardization of—Dr. Oliver L. Marton, Mar. 51
- Perfume materials, instrumentation techniques as applied to quality standards of—James A. Rogers, Jr., Mar. 21
- Perfume oils and perfumery chemicals, the germicidal properties of—Jasper C. Maruzzella, Jan. 67
- Perfumers' approach to analytical instruments—some recent experiences, the—Harry Saunders, May, 31
- Perfumery materials, an overview of quality standards (a review)—Al Fiore, Mar. 19
- Perfumery materials, progress in—Paul Z. Bedoukian, April, 27
- Perfuming of emulsions, the—J. R. Elliott, Oct. 69
- Polyol fatty acid esters in cosmetic emulsions—John Hardiman, Oct. 45
- Polyols in cosmetic emulsions, comparative value of—S. J. Strianse, Oct. 31
- Polyoxyethylene fatty acid esters—L. I. Walton, Oct. 41
- Predicting the stability of cosmetic formulations—Leon Lachmann, Sept. 25
- Pregnenolone in dermatology and cosmetics—R. Sterba and B. Docekal, Jan. 33
- Preservatives in creams, skin reactions to—Niels Hjorth and C. Trolle-Lassen, Jan. 43
- Problems in the standardization of perfume materials as the perfumer sees them—Dr. Oliver L. Marton, Mar. 51
- Proceedings of the 7th annual symposium of the American Society of Perfumers—May, 25
- Program for the T.G.A.-T.G.M.A. joint convention—June, 33
- Progress in perfumery materials—Paul Z. Bedoukian, April, 27
- PVP in cosmetics—M. Freifeld, J. R. Lyons and A. J. Martinelli, Feb. 25
- Radioisotope applications to cosmetic analysis and product evaluation—William F. Bousquet, Aug. 31
- Recent advances with glycyrrhetic acid and its derivatives—Frank M. Sullivan, Jan. 47
- Recent progress in cosmetics—P. C. I. Lauffer, June, 49
- Release of medication from an emulsified ointment base, the—H. G. De Kay, Oct. 109
- Rheological behavior of clay-water systems, the—H. van Olphen, April, 42
- Role of wool wax alcohols in cosmetics, the—E. S. Lower, Oct. 63
- Russian chemical technology, the implications of expanding—R. First, June, 47
- Rutgers' perfumery educational program, future potential of the—Frank Dee, Mar. 17
- Secret life of Mrs. Walter Mitty, the—Beatrice M. Castle, Nov. 23
- Selection of a fragrance for a new consumer product—an attempt to define the roles of consumer panels and of experts—May, 37
- Setting of hair: new ideas reviewed, the—Gavern T. Walker, Feb. 28
- Significance of this joint convention, the—Jean Despres, June, 35
- Silicones in dermatological and cosmetic applications—Dan Pail and Charles W. Todd, Jan. 62
- Skin conditioning composition—a patent—Oct. 55
- Skin, the hormone-like composition for treatment of—Jan. 65
- Skin reactions to preservatives in creams—Niels Hjorth and C. Trolle-Lassen, Jan. 43
- Skin respiration and public relations—W. J. Huston, Dec. 29
- Skin surface by fats and emulsions, hydration of the—Peter Flesch, Oct. 77
- Skin treating composition and method—Feb. 37
- Some new components for cosmetic and dermatologic vehicles—Richard E. Faust, Jan. 23

Specifications, correlation of odor quality and analytical (a review)—Harry Saunders, Mar. 38
 Stability prediction of emulsions—J. Wilkinson, Oct. 105
 Stabilized lotio alba composition—Feb. 45
 Strontium chloride in dentifrice—Jan. 51
 Studies in the electrical resistance of oil-in-water emulsions—I. H. Harrison, Oct. 73
 Sulfur, use of in cosmetics and pharmacy—H. George DeKay, Jan. 27
 Sulfur-bearing, dermatological applications of organic bactericide-fungicides—Betty Tarnoff, Jan. 35
 Symposium on olfaction and taste—R. W. Moncrieff, Nov. 17
 Theoretical aspects of emulsification—Paul Becher, July, 21
 Toilet preparations industry in Canada, the—W. F. Lougheed, June, 37
 Toothpastes as anti-caries agents—R. L. Hartles, Jan. 53
 Toxicological aspects of cosmetic formulation—J. F. Treon, July, 35
 Ultramarine blue—E. W. Large, Sept. 42

Use of fatty acids in cosmetics and perfumery, the—K. T. Zilch, Nov. 41
 Use of fluorides in anticariogenic dentifrices, the—D. S. Barrie, Aug. 39
 Use of sulfur in cosmetics and pharmacy—H. George DeKay, Jan. 27
 Vehicles, some new components for cosmetic and dermatologic—Richard E. Faust, Jan. 23
 Water-in-oil emulsions with ammonium soaps—A. G. Wood, Oct. 117
 Waxes found in petroleum, the nature of—G. W. Skinner, Dec. 25
 Welcome to the first joint convention—James M. Shaw, June, 34
 What can be done about conflicts of interest—William Lambert, Aug. 21
 What the perfumer should know about modern instruments in organic chemistry—Dr. Max Stoll, May, 27
 Wool wax alcohols in cosmetics, the role of—E. S. Lower, Oct. 63

Index of Authors

Barrie, D. S.: The use of fluorides in anticariogenic dentifrices, Aug. 39
 Becher, Paul: Theoretical aspects of emulsification, July 21
 Bedoukian, Paul Z.: Progress in perfumery materials, April 27
 Bell, Maurice and C. D. Moore: Ethoxylated higher fatty alcohols as emulsifiers, Oct. 81
 Bigi, Dr. Bruno: Neroli and orange flower absolute, Sept. 21
 Bjorksten, Dr. Johan: Some chemical aspects of aging, Feb. 49
 Booth, Amy: Modern merchandising, June 51
 Bousquet, William F.: Radioisotope applications to cosmetic analysis and product evaluation, Aug. 31
 Carriere, G.: Classification of emulsifiers, Oct. 119
 Carter, Phyllis: Application of emulsification theories to cosmetic formulation, July 26
 Castle, Beatrice M.: The secret life of Mrs. Walter Mitty, Nov. 23
 Clark, E. W.: Liquid lanolin; development, production properties and uses, Oct. 89
 Connolly, Sheldon: Electrometric titration for cosmetic analysis Sept. 39
 Conrad, Lester I., and H. F. Maso: Functional properties of lanolin derivatives, Oct. 97
 Cook, Herbert, and John W. Hart: A discussion of emulsified products in aerosols, Oct. 49
 Cooper, Dr. Jack: Industrial pharmacy, April 39
 Dean, Donald E.: Performance evaluations and stability testing of perfume and essential oil materials, March 39
 Decker, William E.: Natural pearl essence, Dec. 35
 Dee, Frank: The educational program in perfumery at Rutgers—the State University, March, 17
 DeKay, H. George: Use of Sulfur in pharmacy and cosmetics, Jan. 27; The release of medication from an emulsified ointment base, Oct. 109
 Despres, Jean: The significance of this joint convention, June 35
 Docekal, B., and R. Sterba: Pregnenolone in dermatology and cosmetics, Jan. 33
 Edwards, Mrs. E.: Organizing for foreign market information, June 45
 Eisen, Henry, and John J. Sciarra: Dermatologic pharmaceutical aerosols, Jan. 57
 Elliott, J. R.: The perfuming of emulsions, Oct. 69

Faust, Dr. Richard E.: Some new components for cosmetic and dermatologic vehicles, Jan. 23
 Fiore, Al: An overview of quality standards in perfumery materials (a review) March, 19
 First, R.: The implications of expanding Russian chemical technology, June 47
